Suzanne G. Jepson, Ph.D., Reg. No. 51,848

PETITION TO ACCORD APPLICATION FILING DATE AS OF THE DATE THE
CORRESPONDENCE WAS DEPOSITED WITH THE USPS

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

This Petition is to accord the above-identified application the "date-in" of June 17, 2005 stamped on the Express Mail Label No. EV 466739844 US. Correction is required because the Filing Date indicated on the Notification of Missing Requirements Under 35 U.S.C. 371 in the United States Designated/Elected Office (DO/EO/US) differs from the date stamped on the Express Mailing Label.

It is respectfully contended that the date of June 18, 2005, accorded this application by the PTO, is incorrect.

Submitted herewith is the statement of Suzanne Jepson, that identifies when the discrepancy was discovered and establishes that the petition is being filed promptly thereafter.

37 C.F.R. §1.10(d)(1).

Appl. No. : 10539,924
Filed : June 17, 2005

The Docket No. for this application has been changed from ELLAHK1.002APC to EAGIP2.002APC to reflect a change in the foreign law firm handling this application. This application is entitled "Biologically Active Peptide Conjugates." Attached is a true copy of the first page of the application and Submission by "Express Mail," which was filed showing that the title of the application is "Biologically Active Peptide Conjugates," the date on which this application was mailed as Express Mail Label No. EV 466739844 US was June 17, 2005, and that the number of the Express Mail was placed thereon prior to mailing. 37 C.F.R. §1.10(d)(2).

Also attached is the logged entry for our Docket No. ELLAHK1.002APC (which, as discussed above, has now been changed to EAGIP2.002APC) on United States Postal Service PS Form 3877 which indicates that the Postmark and Date of Receipt at the San Diego, California Midway MOW, was June 17, 2005.

Also attached is a true copy of the "Express Mail" mailing label showing the "date-in" stamp of June 17, 2005. 37 C.F.R. §1.10(d)(3). Although an employee of the United States Postal Service hand wrote the "date in" as June 18, 2005, all other documentation provided herewith indicates that the correct "date in" is June 17, 2005.

Also attached is a true copy of the postcard which was returned by the PTO and stamped "JC02 Rec'd PCT/PTO 18 JUN 2005."

In view of the foregoing, Applicant respectfully requests that this application be accorded a filing date of June 17, 2005.

This Petition is accompanied by the fee set forth in 37 C.F.R. §1.17(h).

Please charge any additional fees, including any fees for additional extension of time, or credit overpayment to Deposit Account No. 11-1410.

Respectfully submitted,

KNOBBE, MARTENS, OLSON & BEAR, LLP

STATEMENT IN SUPPORT OF PETITION UNDER 37 C.F.R. §1.10(d)(1)

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

The present statement is provided to establish that the accompanying Petition to Accord Application Filing Date Shown on Express Mail Label "Date-In" is being submitted promptly after the discovery of a discrepancy between the "date in" stamped by the U.S. Postal Service and the filing date awarded by the USPTO.

The discrepancy was initially noted when my co-worker observed that the filing date listed on the Notice of Missing Requirements under 35 U.S.C. 371 in the United States Designated/Elected Office (DO/EO/US) which we received November 1, 2005, did not correspond to the "date-in" stamped on the Express Mail label. The present statement is being submitted shortly after my co-worker informed me of this discrepancy.

Accordingly, the present statement complies with the requirements of 37 C.F.R. §1.10(d)(1).

Respectfully submitted,

KNOBBE, MARTENS, OLSON & BEAR, LLP

BIOLOGICALLY ACTIVE PEPTIDE CONJUGATES

FIELD OF INVENTION

5 The present invention is related to the field of immunology. In particular, the present invention is directed to peptides and their pharmaceutical compositions which are capable of modulating immune responses.

BACKGROUND OF INVENTION

10 Spleen extracts from mammals have been used successfully for years as medical immune modulators. However, the molecular composition of such extracts is unknown and therefore the exact pharmacological actions of these extracts cannot be identified. The dosage response function also cannot be accurately titrated because of the intrinsic heterogeneous nature of these extracts. Because of such heterogeneity, active ingredients in spleen extracts cannot be singled out and their pharmacological actions cannot be fully
15 utilized. And, no matter how careful the extraction process can be, there is always the possibility of transmission of diseases of animal origin to human if animal tissue is used as the raw material for extraction.

20 US Patent No. 3,992,364 to Kuhlmeier describes a physiologically active polypeptide produced from an animal spleen extract. The exact sequence of the peptide was not disclosed and the preparation was described as being useful for decreasing cholesterol levels and increasing the 17 keto-steroid elimination of human patients.

SUMMARY OF INVENTION

It is an object of the present invention to identify biologically active polypeptides.

25 A study was conducted in which a number of peptides have been identified from a porcine spleen extract according to the method described in US 3,992,364. . The peptides in the extract were separated by preparative HPLC followed by analysis using electrospray ionisation mass spectroscopy (ESMS) and matrix assisted laser desorption ionisation mass spectroscopy (MALDI-MS) at the W. M. Keck Foundation Biotechnology Resource Laboratory at Yale University. Once the identity of the peptides was found, they were
30 individually synthesized by standard chemical methods. Using known animal and in vitro methods, the immunological function of these peptides was analyzed. The in vivo study of the effect of the peptides on immunity was performed using methods described in the following references. The peptides are given codes having the letters CMS followed by a number. The peptide sequence and the corresponding ID numbers are shown in Table A. A
35 total of 30 peptides have been identified as having in vivo biological activities. The effect of the peptides on kidney function, liver function, cancer and body weight was also analyzed.

Declaration

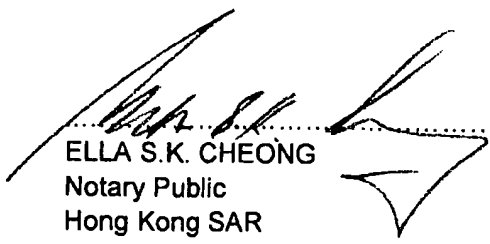

I, Lam Kong (林剛), am the holder of Hong Kong Permanent Identity Card No. P664948(7) and have a place of residence at 9D, Building 19, Baiyi Yuan, Baishida Garden, 28th Taining Road, Shenzhen 518020, People's Republic of China.

I was formerly known only by the Mandarin version of my Chinese name of "Lin Gang (林剛)". Pursuant to the issuance of my Hong Kong Permanent Identity Card in Hong Kong on 25 February 2004, I am now also known as "Lam Kong (林剛)", this being the Cantonese transliteration of the aforesaid Chinese name.

I declare that the Chinese characters "林剛" and "林刚" are merely different representations of the same words and the names "Lam Kong" and "Lin Gang" are merely different English transliterations of these Chinese characters.

In witness whereof, I have set my hand and seal this 20th day of October 2004

Signed, sealed and delivered)

NOTIFICATION OF MISSING REQUIREMENTS UNDER 35 U.S.C. 371 IN THE UNITED STATES DESIGNATED/ELECTED OFFICE (DO/EO/US)

The following items have been submitted by the applicant or the IB to the United States Patent and Trademark Office as a Designated / Elected Office (37 CFR 1.495).

- Copy of the International Application filed on 06/18/2005
- Copy of the International Search Report filed on 06/18/2005
- Preliminary Amendments filed on 06/18/2005
- Information Disclosure Statements filed on 06/18/2005
- Biochemical Sequence Diskette filed on 06/18/2005
- Biochemical Sequence Listing filed on 06/18/2005
- U.S. Basic National Fees filed on 06/18/2005
- Priority Documents filed on 06/18/2005
- Specification filed on 06/18/2005
- Claims filed on 06/18/2005
- Abstracts filed on 06/18/2005
- Drawings filed on 06/18/2005

The applicant needs to satisfy supplemental fees problems indicated below.

The following items **MUST** be furnished within the period set forth below in order to complete the requirements for acceptance under 35 U.S.C. 371:

- Oath or declaration of the inventors, in compliance with 37 CFR 1.497(a) and (b), identifying the application by the International application number and international filing date.
- To avoid abandonment, a surcharge (for late submission of filing fee, search fee, examination fee or oath or declaration) as set forth in 37 CFR 1.492(h) of \$130 for a non-small entity, must be submitted with the missing items identified in this letter.

SUMMARY OF FEES DUE:

Total additional fees required for this application is \$130 for a Large Entity:

- \$130 Surcharge.

ALL OF THE ITEMS SET FORTH ABOVE MUST BE SUBMITTED WITHIN TWO (2) MONTHS FROM THE DATE OF THIS NOTICE OR BY 32 MONTHS FROM THE PRIORITY DATE FOR THE APPLICATION, WHICHEVER IS LATER. FAILURE TO PROPERLY RESPOND WILL RESULT IN ABANDONMENT.

The time period set above may be extended by filing a petition and fee for extension of time under the provisions of 37 CFR 1.136(a).

Applicant is reminded that any communications to the United States Patent and Trademark Office must be mailed to the address given in the heading and include the U.S. application no. shown above (37 CFR 1.5)

*A copy of this notice **MUST** be returned with the response.*
